

HyperDrive KX ATF Dexron II

CODE: KXEMS10

HyperDrive KX ATF Dexron II is an automatic transmission fluid, suitable for use where General Motors Dexron IID, or older, performance is required. Blended using high quality base oils and a balanced additive package, it provides excellent protection against wear, rust and corrosion across a wide temperature range, whilst ensuring the correct friction characteristics to ensure smooth operation of transmission systems.

FEATURES / BENEFITS

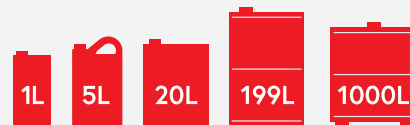

- Balanced formulation provides excellent anti-wear performance and corrosion protection
- Good low temperature performance protects even from cold start
- Low friction properties ensure smooth gear shifting and efficient power transfer
- High quality base oils ensure oxidation and thermal stability, maintaining transmission system cleanliness and performance
- Designed to give good foam control maintaining lubricating oil film between moving surfaces

PERFORMANCE SPECIFICATIONS

HyperDrive KX ATF Dexron II is suitable for use where the following specifications are required:

- GM: Dexron IID
- MB: 236.2

AVAILABILITY

TYPICAL PROPERTIES

Appearance	Red Fluid
Kinematic Viscosity, @ 100°C	7.7 cSt
Kinematic Viscosity, @ 40°C	39.8 cSt
Viscosity Index	167cP
Pour Point	-48°C
Flash Point, COC	214°C
Density, @ 15°C	0.856 g/cm ³

Values are typical of current production, and whilst future production will meet these specifications, some variation in typical data may occur.
